PROJECTS

Login counter

Mar 2019 - Mar 2019

https://github.com/shreemayseth/Login-counter

This is a login page made using PHP which displays the number of times an authorized user accessed the login page.

Motor pump health

Mar 2019 - Mar 2019

https://github.com/shreemayseth/Motor-pump-Visualization

This project is made using html,css,js, jQuery, bootstrap,php,mysql and d3.js. It is a data visualisation project. In this we are taking different parameters of a motor(Ex: current, voltage etc) from the database and showing it in the form graphs.

Music Player

Jan 2019 - Jan 2019

https://github.com/shreemayseth/Music-Player

It's a simple Music Player which has been made using Web Technologies i.e. html , css , js .

Telugu News Aggregator

Jun 2018 - Jul 2018

https://code.swecha.org/sodata/webext/News-Aggregator

This project capably handle the large amount of news that is published nowadays. However, these systems focus on the presentation of important, common information in news, but do not reveal different perspectives on the same topic.
